

WordSort: Northeast

Name _____

Directions: Put the WordBank words into groups, and give each group a name. For example, the *cat* group might have in it the words: litter, mice, paws, meow, and scratch.

Before Reading WordSort

After Reading WordSort

Directions: Now you know more about the topic. Give your groups new names, if you want to, and move around some words. Or make new groups! Make your groups match up with what you read about. You know more now, so your groups should show it!

Brains on Parade: You learned it, now show it! Pick a group and write about it on the back. More writing, more points—so write enough to show what you know. Use your own words!
