

# International Space Fashion Show

Name \_\_\_\_\_

"Welcome to the International Space Fashion Show, where you'll see the latest in sun, moon, and Earth looks ..." We just finished learning about the properties and movements of the sun, moon, and Earth. To show off all we know about this star, planet and moon, we are putting on a space fashion show. Look below for what is involved.

1. Each group of up to four (4) people will choose one of the following for their fashion show:

- Sun
- Moon
- Earth

2. Using your science book and your Sun, Moon and Earth Book, try to answer the following questions:

- What is your space body? \_\_\_\_\_
- What would be a description of your space body? Talk about the following:

- |                                |                               |                                  |                                |                                      |   |
|--------------------------------|-------------------------------|----------------------------------|--------------------------------|--------------------------------------|---|
| <input type="checkbox"/> shape | <input type="checkbox"/> size | <input type="checkbox"/> mass    | <input type="checkbox"/> color | <input type="checkbox"/> temperature | <input type="checkbox"/> atmosphere             |
| <input type="checkbox"/> water | <input type="checkbox"/> life | <input type="checkbox"/> gravity | <input type="checkbox"/> light | <input type="checkbox"/> distance    | <input type="checkbox"/> other special features |

**Answer these by comparing your space body to the others. *EXAMPLE: the earth is 4 times larger than the moon, or the earth is 100 times smaller than the sun.***

- How does your space body move? Talk about how your space body:
  - rotates** and the time it takes
  - revolves** and the time it takes

3. Write a fashion show script for your space body. This would be what the announcers would be saying about your space body as it is walking down the runway. Remember, fashion shows are all about style and looks, so you will need to describe how your space body looks, and also about the other important information from number 2 above.

4. Have a member of your group dress up as your space body and then walk down the runway during the fashion show. This costume does not need to be too elaborate, a decorated garbage or grocery bag, or posterboard will work if thought is put into decorating it.

See reverse side to find out how you earn points for this project.

<i>Required Fashion Show items:</i>	<i>Points for each item:</i>	<i>Scoring:</i>
<i>Fashion Show Script</i>		
<b>Write</b> a <u>fashion show script</u> for your space body.	3	
<b>Include</b> <u>all necessary information</u> as noted in number 2 above.	10	
<b>Creativity</b> —your script is unique, attention-grabbing, funny.	4	
<b>Neatness and enthusiasm</b> —your script is well-read and is read with enthusiasm and good tone. It is clear and easily understood, not boring and jumbled.	5	
<i>Fashion Show Space Body Dress-Up</i>		
<b>Dress up</b> as your <u>space body</u> .	1	
<b>The walk</b> —if you are going to be a runway model, you better have a killer walk. Make it be funky, creative, spacey!	1	
<b>Creativity</b> —your space body costume is unique, attention-grabbing, appealing, colorful, and well-designed.	2	
<b>Neatness and accuracy</b> —your space body costume is carefully assembled, not sloppy, and has all the appropriate parts so that it looks like your space body, not like a cartoon version of the sun, moon, or Earth.	4	
	<b>Project Total (30 points)</b>
